Chaturvedi, A.K. **115**, 1
Clarke, F.B. **115**, 179
Collins, W.E. **115**, 5

D'Nicuola, J. **115**, 129

Eklund, T.I. **115**, 135

Galea, E.R. **115**, 63

Hartzell, G.E. **115**, 7
Higgins, E.A. **115**, 1
Hill, I.R. **115**, 119
Hoover, J.R. **115**, 179

Januszkiewicz, A.J. **115**, 157
Jordan, J.L. **115**, 3

Kaufman, J.W. **115**, 123
Kunsman, G. **115**, 129

Lawrence, P.J. **115**, 63
Levin, B.C. **115**, 89
Levine, B. **115**, 129

Macys, D.A. **115**, 107

Owen, M. **115**, 63

Purser, D. **115**, 25

Ritchie, G.D. **115**, 107
Rossi, J., III **115**, 107

Sanders, D.C. **115**, 1
Sarkos, C.P. **115**, 79
Scherer, P.W. **115**, 123
Smith, M. **115**, 129
Smith, S.M. **115**, 157
Speitel, L.C. **115**, 167
Stahl, C. **115**, 129
Still, K.R. **115**, 107
Stuhmiller, J.H. **115**, 157

Tewarson, A. **115**, 145
Trimble, E.J. **115**, 41

Yang, C.-C.G. **115**, 123

TOXICOLOGY

# Subject index

## Volume 115 (1995)

**Aerosol**; Respiratory particle deposition; Breathing **115**, 123

**Aircraft fire safety**; Flashover; Toxic gases; Full-scale fire tests; Survivability **115**, 79

**Aircraft**; Fires; Smoke; Toxicity; Behaviour; Tenability **115**, 25

**Aircraft survivability**; Survival model; Toxicity model; Fractional effective dose; Inhalation toxicity **115**, 167

**Animal models**; Neurobehavioral and neuromolecular batteries; Behavioral tests; Risk assessment; Pharmacokinetic model **115**, 107

**Asphyxiants**; Combustion toxicology; Smoke toxicity; Fire gases; Irritants **115**, 7

**Behavioral tests**; Neurobehavioral and neuromolecular batteries; Animal models; Risk assessment; Pharmacokinetic model **115**, 107

**Behaviour**; Aircraft; Fires; Smoke; Toxicity; Tenability **115**, 25

**Breathing**; Aerosol; Respiratory particle deposition **115**, 123

**Cabin ventilation and smoke control**; In-flight cabin fires; Smoke movement behavior **115**, 135

**Carbon dioxide**; Carbon monoxide; Nitrogen dioxide; Lethality; Correlation **115**, 157

**Carbon monoxide**; Carboxyhemoglobin; CO-Oximeter and gas chromatographic methods; Fire deaths **115**, 129

**Carbon monoxide**; Nitrogen dioxide; Carbon dioxide; Lethality; Correlation **115**, 157

**Carboxyhemoglobin**; Carbon monoxide; CO-Oximeter and gas chromatographic methods; Fire deaths **115**, 129

**Combustion gases**; N-Gas Model; Toxicant suppressants; Genetic toxicology; Polyurethane foam **115**, 89

**Combustion products**; Fire ventilation; Concentration predictions; Flammability **115**, 145

**Combustion toxicology**; Smoke toxicity; Fire gases; Asphyxiants; Irritants **115**, 7

**Concentration predictions**; Fire ventilation; Combustion products; Flammability **115**, 145

**CO-Oximeter and gas chromatographic methods**; Carboxyhemoglobin; Carbon monoxide; Fire deaths **115**, 129

**Correlation**; Carbon monoxide; Nitrogen dioxide; Carbon dioxide; Lethality **115**, 157

**Evacuation**; Simulation; Model; Fractional effective dose; Expert-system **115**, 63

**Expert-system**; Evacuation; Simulation; Model; Fractional effective dose **115**, 63

**Fire deaths**; Carboxyhemoglobin; Carbon monoxide; CO-Oximeter and gas chromatographic methods **115**, 129

**Fire gases**; Combustion toxicology; Smoke toxicity; Asphyxiants; Irritants **115**, 7

**Fire hazard assessment**; Scenario analysis; Test method selection **115**, 179

**Fires**; Aircraft; Smoke; Toxicity; Behaviour; Tenability **115**, 25

**Fire ventilation**; Combustion products; Concentration predictions; Flammability **115**, 145

**Flammability**; Fire ventilation; Combustion products; Concentration predictions **115**, 145

**Flashover**; Aircraft fire safety; Toxic gases; Full-scale fire tests; Survivability **115**, 79

**Fractional effective dose**; Evacuation; Simulation; Model; Expert-system **115**, 63

**Full-scale fire tests**; Aircraft fire safety; Flashover; Toxic gases; Survivability **115**, 79

**Genetic toxicology**; Combustion gases; N-Gas Model; Toxicant suppressants; Polyurethane foam **115**, 89

**In-flight cabin fires**; Smoke movement behavior; Cabin ventilation and smoke control **115**, 135

**Irritants**; Combustion toxicology; Smoke toxicity; Fire gases; Asphyxiants **115**, 7

**Lethality**; Carbon monoxide; Nitrogen dioxide; Carbon dioxide; Correlation **115**, 157

**Model**; Evacuation; Simulation; Fractional effective dose; Expert-system **115**, 63

**Neurobehavioral and neuromolecular batteries**; Behavioral tests; Animal models; Risk assessment; Pharmacokinetic model **115**, 107

**N-Gas Model**; Combustion gases; Toxicant suppressants; Genetic toxicology; Polyurethane foam **115**, 89

**Nitrogen dioxide**; Carbon monoxide; Carbon dioxide; Lethality; Correlation **115**, 157

**Pharmacokinetic model**; Neurobehavioral and neuromolecular batteries; Behavioral tests; Animal models; Risk assessment **115**, 107

**Polyurethane foam**; Combustion gases; N-Gas Model; Toxicant suppressants; Genetic toxicology **115**, 89

**PPBE tests**; Lung simulators; Challenge combustion atmospheres; Hopcalite filters; Breathable gas (oxygen) hoods; Filter/oxygen mask **115**, 41

**Respiratory particle deposition**; Aerosol; Breathing **115**, 123

**Risk assessment**; Neurobehavioral and neuromolecular batteries; Behavioral tests; Animal models; Pharmacokinetic model **115**, 107

**Scenario analysis**; Fire hazard assessment; Test method selection **115**, 179

**Simulation**; Evacuation; Model; Fractional effective dose; Expert-system **115**, 63

**Smoke**; Aircraft; Fires; Toxicity; Behaviour; Tenability **115**, 25

**Smoke movement behavior**; In-flight cabin fires; Cabin ventilation and smoke control **115**, 135

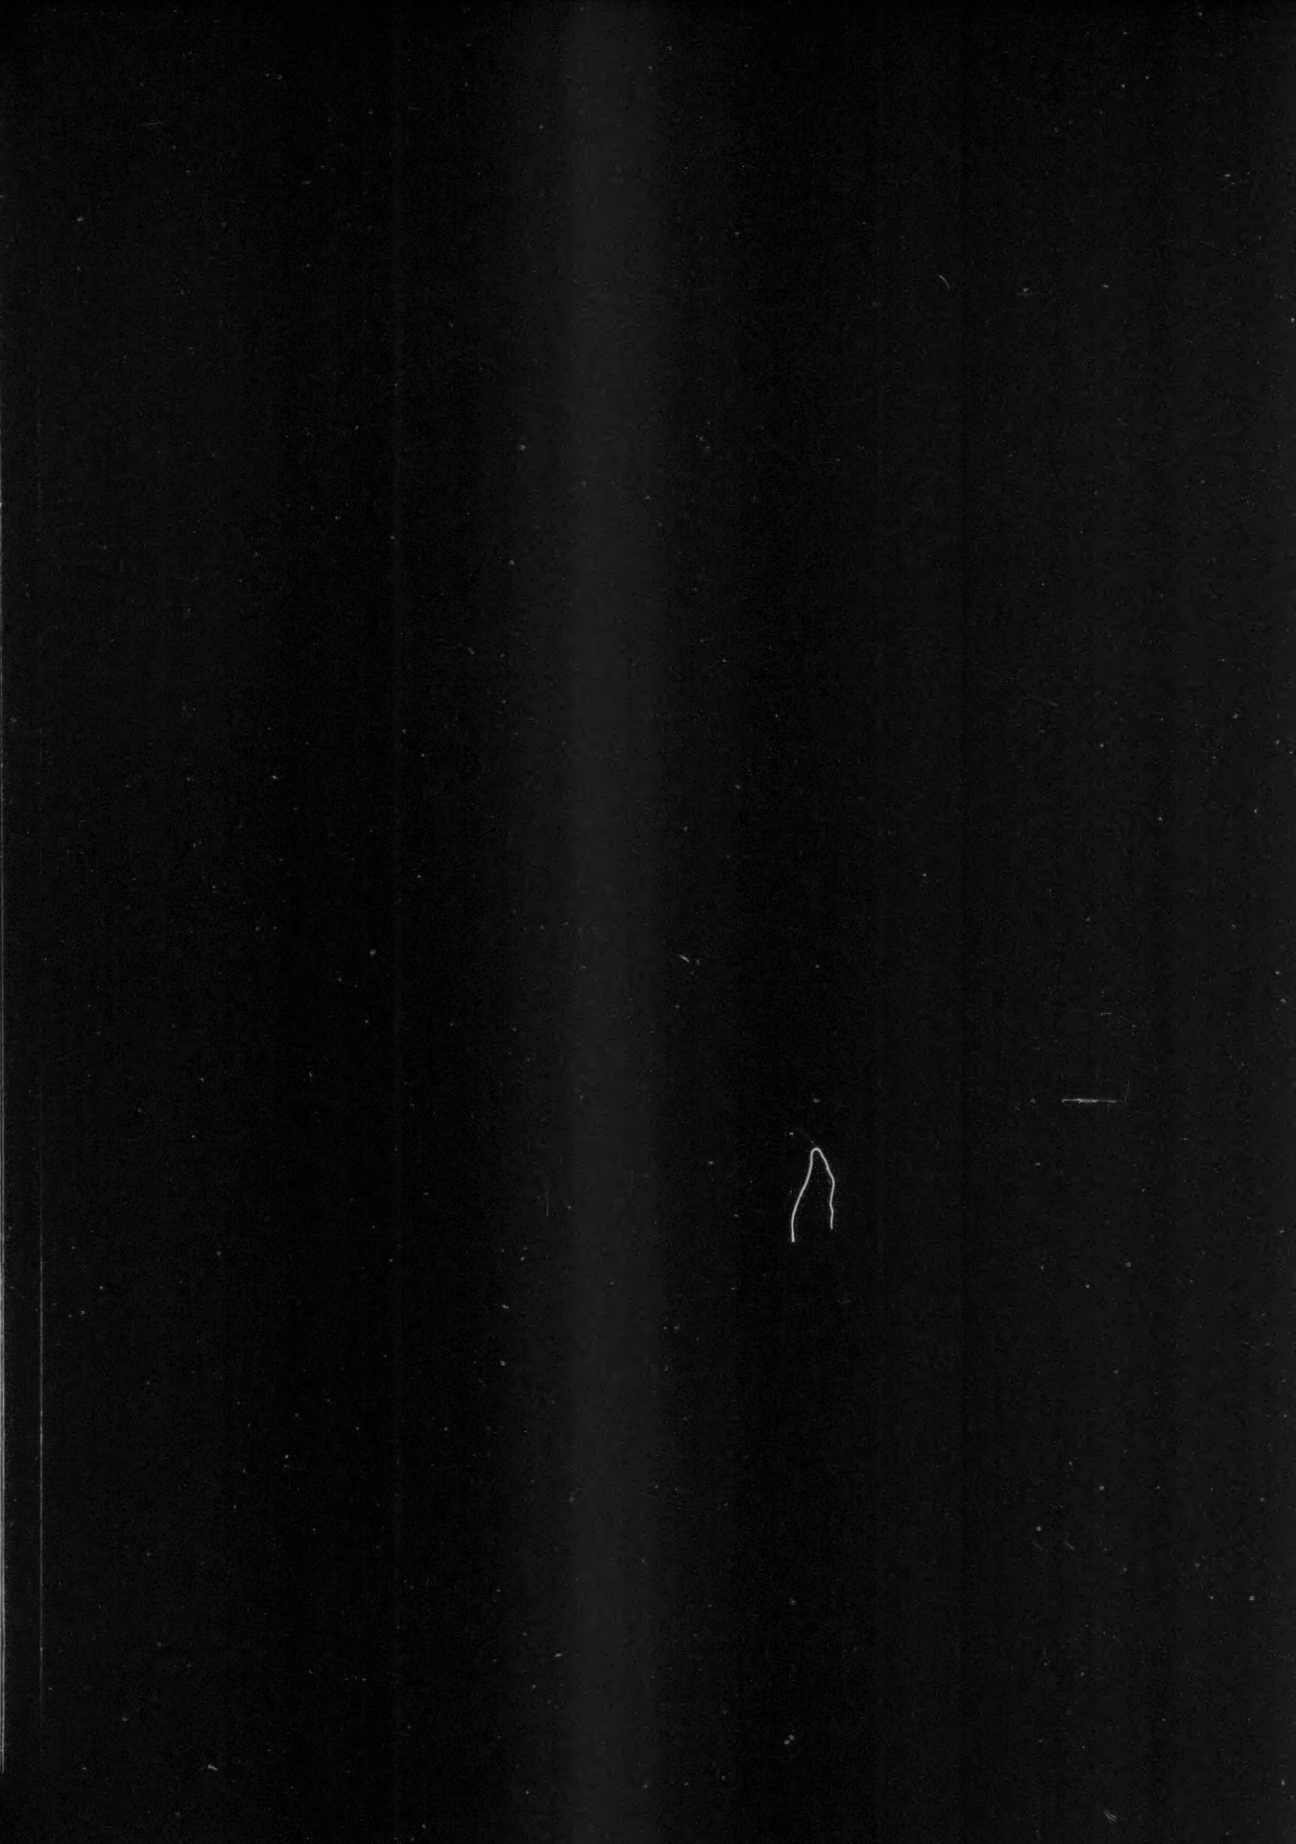
**Smoke toxicity**; Combustion toxicology; Fire gases; Asphyxiants; Irritants **115**, 7

**Survivability**; Aircraft fire safety; Flashover; Toxic gases; Full-scale fire tests **115**, 79

**Tenability**; Aircraft; Fires; Smoke; Toxicity; Behaviour **115**, 25

**Test method selection**; Fire hazard assessment; Scenario analysis **115**, 179

**Toxicant suppressants**; Combustion gases; N-Gas Model; Genetic toxicology; Polyurethane foam **115**, 89

**Toxic gases**; Aircraft fire safety; Flashover; Full-scale fire tests; Survivability **115**, 79


**Toxicity**; Aircraft; Fires; Smoke; Behaviour; Tenability **115**, 25
